Report was read by Joe Freitas, Chairman of Finance Committee

Town of Berkley
Finance Committee
Good Evening,

Tonight's Special Town Meeting signifies the close of the FY2023 budget season. Articles 2 and 3 will address the budget surplus of \$70,177 that was left over from June's Annual Town Meeting. The majority of appropriations represent either the successful conclusion of contract negotiations or the reinstatement of line items to their appropriate level. It is important to note that taxation is in no way affected by tonight's warrant articles. Having reviewed each of the listed items, this board finds them to be necessary and fully supports the adoption of articles 2 and 3.

Along with an adjustment for additional new growth, the Town of Berkley finds itself with a modest budget surplus at the Special Town Meeting. The Finance Committee recommends the transfer of the remaining \$28,523 into stabilization. Once transferred into stabilization, it cannot be removed without a simple majority vote. * Tonight you will hear a different total of \$31,023 from the Board of Selectmen in which adds an additional 2500.00. The Finance Committee supports any additional funding from the Board of Selectmens Budget to be placed into the Stabilization Account.

This committee supports the purchase of an ambulance for the Fire Department through the use of Ambulance User Fees. The article does not impact taxation, nor does it affect the budget surplus while providing the Fire Department with a critical piece of equipment. Ambulance User Fees have been an important source of revenue growth for the

Town in recent FYs and the Finance Committee believes that this purchase will help drive revenue growth further.

The Finance Committee is also monitoring a few fiscal obstacles in coming FYs, none larger than the payment of the new Bristol-Plymouth High School. With that in mind, this Committee supports the passage of Article six with the hope of defraying some portion of the costs associated with that project. While the inclusion of the new member town may not reduce our share by a substantial number, any savings would be welcome.

The Town of Berkley remains in a sound financial position and continues to work towards the eventual elimination of its structural deficit. Berkley has reduced the use of available funds in its operating budget by nearly \$150,000 over the past two years. This committee voices its support for fiscal conservatism whenever possible and will continue to do so in future FYs. There are challenges on the horizon in the coming years, but this board remains confident that progress will continue in FY 2024.

It has been our honor to serve the Town of Berkley.
